Subject: WISE Membership Renewal/Application: Hartmut Hollaender

Name*:	Hartmut Hollaender
Email*:	hartmut.hollaender@umanitoba.ca
WISE Membership Interests (Check all that apply)*:	Connect me to potential internal UW research collaborators (e.g. faculty conducting similar or complementary research), Help me identify and/or foster industry and other external research partnerships, Help me identify and/or develop international research connections, Participate in large-scale / multi-disciplinary WISE proposal development, Promote my work ("research spotlight", conferences etc) and develop in-depth features that translate it into a widely accessible language ("research bulletins"), Connect me with shared resources (lab facilities) that I may access to advance my research, Keep me posted on funding and/or research collaboration opportunities, Keep me posted on WISE news and updates
If you checked 'Help me identify and/or develop international research connections', please indicate priority country.:	Germany
Active Research Areas (Check all that apply)*:	Geothermal
	Form and/or serve on a WISE Committee (Research, Training, International Relations, Industry Partnerships, Communications),

Engagement Opportunities (Check all that apply):	Collaborate with other researchers, where appropriate, on sustainable energy research projects, Share my industry, research and/or global connections with WISE administration, Provide insights into future funding opportunities, Share documents of interest with WISE membership (e.g., research outputs, public or limited-access reports), Present a WISE Seminar, Identify a promising candidate for a WISE Public Lecture or Seminar, Co-supervise other WISE faculty students, Share item(s) of interest with WISE Members
Tell Us About Yourself (Highly encouraged) - Please upload files below:	Example research output(s) (e.g., articles, publications, presentations, project summary), Attach or list 5 most important energy related publications
Bio Upload:	WISE-Hollaender_CV.pdf
File Upload:	Jarrahi-2017-Energy-Procedia.pdf

List of 5 most important energy related publications:	Jarrahi, M., Holländer, H., 2017. Numerical simulation of flow heterogeneities within a real rough fracture and its transmissivity. Energy Procedia 125, 353-362. Susanto, S. and Holländer H.M. (2017): Development of geothermal energy resources maps for the City of Winnipeg. GeoOttawa 2017, Ottawa, ON, 01.10.-04.10.2017, Proceedings of the 70th CGS Conference, paper 743. Moore, K. and Holländer, H.M. (2017): Geochemical modelling of the dissolution of salt minerals and application to geothermal energy. GeoOttawa 2017, Ottawa, ON, 01.10.-04.10.2017, Proceedings of the 70th CGS Conference, paper 711. Firoozy, N. and Holländer, H.M. (2016): Simulation of heat and fluid transfer of an EGS well system for electricity production in the Williston Basin, Proceedings of the 69th CGS Conference, paper 3989.

List of industrial partners you are collaborating with:	KGS Group, Winnipeg, MB Friesen Drillers, Steinbach, MB
List of international partners you are collaborating with:
